hidden problems web engineering is an international open access journal that was  
launched by the chinese academy of engineering cae in 2015 its aims are to provide a  
high level platform where cutting edge advancements in engineering r d current major  
research outputs and key achievements can be disseminated and shared to report  
progress in engineering science discuss hot topics areas of interest challenges and  
prospects in engineering web engineering is based principally on physics chemistry and  
mathematics and their extensions into materials science solid and fluid mechanics  
thermodynamics transfer and rate processes and systems analysis unlike scientists  
engineers are not free to select the problems that interest them web what is engineering  
engineering uses scientific and mathematical knowledge to solve real world problems  
when a technological innovation comes along engineers apply it to make the world a
